

Spring Term Home Learning Projects

"A Walk on the Wild Side!"

Please aim to complete **two of these projects each half term** so by the Easter holidays you will have completed at least 4 of the activities below. These activities are designed to get your creative juices flowing and to be a great opportunity to develop your learning with support from someone at home. Please share your learning on Tapestry or bring in to class. **House points will be awarded!**

| <p style="text-align: center;"><u>Marvellous Maps!</u></p> <p>We are learning the names of the five oceans and seven continents of the world. But, what more can you find out about them? Choose a continent or ocean and draw a map or make a fact page about it. Or, you might even like to use your IT skills to create a PowerPoint presentation?</p> | <p style="text-align: center;"><u>Local Area Walk</u></p> <p>Go on a walk with your family and take a photo of some of the familiar features that you see where you live. Are they human or physical features?</p> <p>It might inspire you to make a simple guide book all about the area that you live in. Or you might like to use your map making skills to draw a map of where you went?</p> | <p style="text-align: center;"><u>Fabulous Fruit</u></p> <p>In DT we will be tasting fruit and designing our own fruit salad linked to one of our key texts "Handa's Surprise". Why not try a new exotic fruit or even make your own fruit salad! You could write the recipe for us too!</p> <p>Or perhaps you could survey your family on their favourite fruit?</p> <p>Take a photo and let us know how you got on.</p> |
| <p style="text-align: center;"><u>Animal Facts</u></p> <p>Find out about an animal that lives in a hot or cold climate using a book, the internet (with a grown up) or perhaps by visiting a zoo.</p> <p>Why not make a fact page about this animal or present the information in a way that you choose?</p> | <p style="text-align: center;"><u>Money Maths</u></p> <p>Use your money maths skills and go shopping! Find the coins or note that you need to pay for an item and maybe even work out how much change you will get?</p> <p>Perhaps you could set up a pretend shop at home and have a go at being the shop keeper!</p> | <p style="text-align: center;"><u>Super Sculpture</u></p> <p>We are going to be looking at sculptures made by the artist Joan Miro. Using any material you like make a sculpture of an animal.</p> <p>If your creation is too large to bring in, we'd love to see a photo on Tapestry! Don't forget to name your artwork!</p> |

Or get creative and amaze us with some of your own choice topic related learning!

Don't forget to show off your reading at home and practise reading and spelling the Year 1 or 2 Common Exception Words.
