

Fantastic Forests

Spring Term Home Learning Projects Year 1

Please complete 2 of these projects each half term so that by the Easter Holidays you will have completed at least 4 of the activities below. These activities are designed to get your creative juices flowing and to be a great opportunity to develop your learning with support from someone at home. We are really looking forward to sharing what you have learnt and the new skills you have developed. When you have some Home Learning to share, you could bring it in to show or upload a photo and/or video to Tapestry.

Perform a poem

Choose a favourite poem to perform to the class. Try to learn it by heart and add some actions to help you. You can either perform it live or send in a video of your performance! You might want to choose a poem with a nature theme to fit in with our topic?

Super Sculpture!

Create a forest sculpture! Use whatever material you like to create a sculpture of a plant, a tree or an entire forest! If it is too large or delicate to bring in then why not email a photo of you and your creation?

Forest Adventure

Go on a forest or woodland walk with your family and try to identify some of the plants and animals that you see. You could make a map of your walk using your geographical skills.

Marvellous Measuring!

Have a go at measuring things at home (either length/ height in cm/m, mass in kg/g, capacity in litres/ml). Record what you have measured - you could even make a simple table to show us your findings.

Techy Tour Guide

Imagine that you are a forest tour guide. Choose a forest anywhere in the world to research using the internet (with adult supervision), non-fiction books or by asking a grown up. Make a poster or a leaflet. Include a map to show us where in the world it is or video yourself telling us all about your chosen forest.

Go green!

Make a difference to the planet by doing something eco-friendly. You could encourage your family to recycle more/use less energy/ use less plastic or go on a litter pick (with adult supervision).

...or get creative and amaze us with some of your own choice topic related learning!

Don't forget to read as often as possible at home and practice reading and spelling the Year 1 Common Exception words (found on our Class Page)! Please record your child's reading in their yellow reading record book. House points will be awarded to children who are busy practicing their reading skills at home.
