

Spring Term 2025 Home Learning Projects Amazing Adventures and Daring Deeds!

Please aim to complete **two of these projects each half term** so by the Easter holidays you will have completed at least 4 of the activities below. These activities are designed to get your creative juices flowing and to be a great opportunity to develop your learning with support from someone at home. Please share your learning on Tapestry or bring in to class. **House points will be awarded!**

<p><u>Exploring Explorers!</u></p> <p>We are going to be finding out about the explorers Captain Cook, Roald Amundsen, Ibn Battuta, Charles Darwin, Sylvia Earle and Edmund Hillary, but which other explorers can you investigate? Can you make a poster or a short presentation to tell us about them?</p> <p>You might like to use this game on BBC bitesize to help you: https://www.bbc.co.uk/bitesize/articles/zsydr2p</p>	<p><u>Local Area Walk</u></p> <p>Go on a walk with your family and take a photo of some of the familiar features that you see where you live. Are they human or physical features? Can you use a compass to help you find your way?</p> <p>It might inspire you to make a simple guide book all about the area that you live in. Or you might like to use your map making skills to draw a map of where you went?</p>	<p><u>Fab five a day!</u></p> <p>We are thinking about keeping healthy. Why not try a new exotic fruit or veg or even make your own fruit salad! You could write the recipe for us too using your instruction writing skills. Or perhaps you could survey your family on their favourite fruit or veg?</p> <p>Take a photo and let us know how you got on.</p>
<p><u>Adventurous Animals</u></p> <p>Find out about an animal that lives in a hot or cold climate using a book, the internet (with a grown up) or perhaps by visiting a zoo.</p> <p>Why not make a fact page about this animal or present the information in a way that you choose? This website might be useful: https://www.natgeokids.com/uk/category/discover/animals/</p>	<p><u>Money Maths</u></p> <p>Use your money maths skills and go shopping! Find the coins or note that you need to pay for an item and maybe even work out how much change you will get?</p> <p>Perhaps you could set up a pretend shop at home and have a go at being the shop keeper! The following games will be fun to play too: https://www.topmarks.co.uk/money/toy-shop-money https://www.topmarks.co.uk/money/coins-game</p>	<p><u>Wonderful Weather!</u></p> <p>What can you find out about the weather? Keep a weather diary to record the different weather that we experience each day or maybe even measure the rainfall where you live. You might like to play the Pirate Bunnies world adventures game on BBC Bitesize https://www.bbc.co.uk/bitesize/topics/zvzd8xs/articles/z6vyf4j</p>

Or, get creative and amaze us with some of your **own choice topic related learning!**

Don't forget to show off your reading at home and practise reading and spelling the Year 1 or 2 Common Exception Words.
