

Moving on, Journeys and Adventures

Week 11, 1st – 4th July

This week In Oak class:

Maths

This week we think about different positions. The children will be encouraged to look at the world, structures and their own creations from different perspectives.

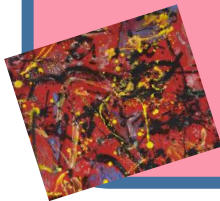

They will then move on to verbalise this by describing scenes using positional language. The children will have looked at scenes from different perspectives, which gives them the skills to describe scenarios such as journeys of a small-world character in more depth.

Expressive Arts and Design

Role play- We are enjoying using a big map outside in our role play so this will carry on into next week.

We will continue to use paint and colour to make repeating patterns this week.

Communication and Language and

Personal, Social and Emotional development

Our Growth Mindset character this week is the collaborative bees as we remember to work together and share our ideas.

Your children have been telling me all about their knowledge of the world and the countries that they know. We will move on and talk in detail about some of the creatures we find in different places in the world.

This week we are going to learn some facts about penguins.

Understanding of the world

This week we are continuing our learning about maps and the world. We are going to focus on the North and South pole this week and what it would be like to live there. We are then going to learn all about penguins and do some writing about what we find out.

We will be looking at non-fiction books and learning facts about them as well as looking at pictures of them and learning the key vocabulary

Literacy and Phonics

Your child is busy learning their set of sounds in their daily phonics group. Please remember we change books every 3-5 days and your child is meant to be able to read the book by the time it goes home as we have been practising in school. They may still need a little bit of help from you, but if not, it does not mean it is too easy, they are showing off all their hard work, working on their fluency and using their story telling voices for you!

Please make sure they have their reading book in school every day and please do write in their yellow reading records to let us know how they are doing with their reading at home. You can watch the videos for the letter sounds on our school's virtual classroom on our website:

https://www.loxwoodschoo.com/web/phonics_and_early_reading/635274

Poles Apart-We are taking part in weekly writing tasks to learn how to use our phonics to spell words and how to write a sentence. This week our inspiration will be the story Poles apart- we are going to read non-fiction information about penguins and write about them as well.

Physical Development

As part of our transition to Year 1, we are now going to have two weekly PE lessons- on a TUESDAY and a WEDNESDAY. Please encourage your child to change their clothes independently at home for practise.
